

Class Assignment: MPG tables and charts

MA615

September 19, 2019

Class assignment:

Using the MPG dataset, which is available with the ggplot2 library, produce a document that includes the following elements: headers, text, tables, and plots.

Tables should include a comparison of city and highway mileage by the class of car and the best three car models for city and highway mileage for all the years in which data is available.

Plot the data displaying as much of the data as you can. Put continuous variables on the axes and include a locally smoothed regression line to show the relationship with mileage. Also make a box plot comparing city and highway MPG by class of car.

Tables

This example is flawed even though the code works. Explain. And now that you know how to produce the table can you improve the code by using an **apply** functional?

Boxplots

Table 1: Mean City and Highway MPG by Car Class

Class	City	Highway
2seater	15.40	24.80
compact	20.13	28.30
midsize	18.76	27.29
minivan	15.82	22.36
pickup	13.00	16.88
subcompact	20.37	28.14
suv	13.50	18.13

Table 2: Top 3 MPG Performing Cars: 1999, 2008

City 1999		Highway 1999		City 2008		Highway 2008	
Model	Milage	Model	Milage	Model	Milage	Model	Milage
new beetle	26.00	new beetle	35.00	corolla	27.0	corolla	36.00
civic	24.80	corolla	32.67	civic	24.0	civic	33.75
corolla	24.67	civic	31.60	gti	21.5	camry	30.00

City MPG by Class of Car: 1999, 2008

Highway MPG by Class of Car: 1999, 2008
